DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species: Species I, referring to Figs. 2-7; Species II, referring to Figs. 8A-8B; Species III, referring to Figs. 9A-9C; Species IV, referring to Figs. 10A-10C; Species V, referring to Figs. 11A-11B; Species VI, referring to Figs. 11C-11D; Species VII, referring to Figs. 11E; Species VIII, referring to Figs. 12A-12B; Species IX, referring to Fig. 13; Species X, referring to Figs. 14-17; Species XI, referring to Figs. 18A-18B; Species XII, referring to Fig. 19; Species XIII, referring to Fig. 20; Species XIV, referring to Fig. 21; Species XV, referring to Fig. 22A; Species XVI, referring to Fig. 22B; Species XVII, referring to Figs. 23A-23D; Species XVIII, referring to Figs. 24A-24B; Species XIX, referring to Figs. 24C-24D; Species XX, referring to Figs. 25A-25B; Species XXI, referring to Fig. 26; Species XXII, referring to Fig. 27A; Species XXIII, referring to Figs. 28A-28C. The species are independent or distinct because all the structure limitations in the different species discloses distinct and separate structure limitations that differentiate from each species.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 3738

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

A telephone call was made to Jerrold J. Litzinger on July 17, 2006 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alvin J. Stewart whose telephone number is 571-272-4760. The examiner can normally be reached on Monday-Friday 7:00AM-5:30PM(1 Friday B-week off).

Art Unit: 3738

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Corrine McDermott can be reached on 571-272-4754. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
